COLONEL QADDAFI SAYS: "ISLAMIC RELIGION DOES NOT JUSTIFY
THE SHAH OF IRAN TO INVADE OMAN"

Colonel Muammar Qaddafi, President of the Revolutionary Command Council of Libya, reaffirmed the stand of the Libyan Arab Republic by the side of the struggle of the Omani people against the Iranian invasion forces and British colonialism, the Jordanian interference and the puppet regime in Muscat, and asked the Arab rulers to take a unified stand for expelling the Iranian invaders and the Jordanians and "Anglo-American colonialism and the foreign presence in Oman. Colonel Muammar Qaddafi described the silence of the Arab rulers over the Iranian invasion of Oman as submission and full of fear and said that some Arab governments keep silent over the Iranian interference due to the financial enticements extended by Iran to them.

Colonel Qaddafi affirmed the cohesion and alliance of the Libyan revolution with the struggle of the Omani people and the People's Democratic Republic of Yemen in facing the Iranian invasion. He asked: under what right the Shah is allowed to send his armies for invading Oman and killing the Omani people and occupying the Arab islands. There is no justification for that. Colonel Qaddafi was delivering a speech at the Arab Youth Festival now in session in Tripoli in the Arab Republic of Libya.

Memorandum of Arab Jurists Federation to Arab League

DEMANDS EXPULSION OF SULTANATE'S MEMBERSHIP AND LIQUIDATION
OF FOREIGN PRESENCE FROM OMAN

The Permanent Bureau of the Arab Jurists Federation sent a memorandum to the Secretary General of the Arab League and other Arab League members resenting the acceptance of the traitorous regime in Muscat as member in the Arab League. This regime does not possess the simplest qualifications for membership.

The memorandum of the Arab jurists explained the conditions prevailing in Oman comprehensively and demonstrated by fact and evidences the reality of foreign colonialism of Oman and the British and Iranian treaties, bases and airfields existing in Oman which tries had some of them concluded during the era of puppet Qaboos. The memorandum said:-

"The question of the independence of the Sultanate of Oman and its acceptance in the membership of the Arab League stirs a lot of queries. How then the Arab League permits a regime such as the Muscat regime to be a member in it." The memorandum added: "We are confident that the Arab League knows the type of independence enjoyed by the Sultanate of Oman".

The permanent Bureau of the Arab Jurists Federation also explained the size of Iranian invasion and occupation of a number of islands and Omani territories and its military interference in a bid to repress the Omani revolution. It also showed the size of Jordanian military interference and the reality of the so-called Sultanate which is administered by British officers, and political advisers and finally the granting to American imperialism of Masirah base for transforming it into another aggressive base.

At the end of the memorandum the Arab jurists asked the Arab League to expel the puppet Qaboos regime from the membership of the Arab League and demanded the interference of the Arab League in the adoption of essential methods and means for expelling all foreign forces and bases from Oman and to leave the Omani people determine their own future by themselves. The Arab Jurists Federation also asked the Arab League to interfere for the release of all political prisoners from the prisons of Muscat and to halt the campaigns of torture and arrests against the Omani citizens.

The following is the text of the message addressed by the Arab Jurists Federation to the Embassy of the Muscat puppets in Beirut:-

Detainees and prisoners in Muscat.

ARAB JURISTS - Cont'd.

"We wish to inform you that the Permanent Bureau of the Arab Jurists Federation which was held in Baghdad during the period 4th to 6th May, after reviewing the general conditions in the Arab area and inasmuch as the matter is connected with the bad condition of the political detainees in the Sultanate of Oman it was decided to send a three-member commission from the Permanent Bureau to visit the prisons of the Sultanate in order to get acquainted with the conditions of the political prisoners and to find out facts. Please notify your government with that to facilitate the assignment of the commission."

ARAB STUDENTS CELEBRATE TENTH ANNIVERSARY OF 9th
JUNE REVOLUTION IN YUGOSLAVIA

The branch of the General National Union of Yemeni Students in Yugoslavia issued a statement on the occasion of the tenth anniversary of the armed revolution in Oman in which they explained the nature of the conspiracies and the campaigns of imperialism and reaction which are being faced by the Omani revolution whose victories started to pose danger to the interests of imperialism and reaction in the area of Oman and the Arabian Gulf. The statement resented the Iranian invasion of Oman and said that Iran is the staircase of American imperialism which aims at realising several targets including the extinguishment of the Omani revolution and the toppling down of the progressive regime in the People's Democratic Republic of Yemen. Therefore, the imperialist invasion and the Iranian invaders are now mobilising their forces and building military bases and airfields in different parts of Oman and across the eastern borders of the People's Democratic Republic of Yemen with the aim of implementing their aggressive plan. The statement also condemned the puppet Jordanian reactionary interference in Oman and despatch of the Jordanian army and aircraft to fight the Omani people beside the invaders and colonialists. The statement said that the Jordanian regime is well known for its hiredom to world imperialism and is the sworn enemy of the Arab liberation movement which is working to crush it. The statement asked the Arab countries to stop aid for the puppet Jordanian regime and to extend every backing to the Omani revolution. It also demanded the release of the political detainees and prisoners in Muscat.

ARAB STUDENTS - Cont'd.

It is worth recalling that the branch of the Yemeni Students Union and the office of the Palestine Liberation Organisation in Yugoslavia have held a symposium on the revolution which was attended by the Arab students and continued for nearly three hours. The Yemeni students have also distributed statements and circulars and newspapers of the revolution to all Yugoslav towns in which foreign Arab students are present. Moreover, in May a week was held in solidarity with the struggle of the Omani people in the town of "Nich" in collaboration with the Yemeni students and the Club for Friendship with Peoples in Yugoslavia.

Meanwhile, A solidarity meeting was had in France with the revolution of 9th June. This was attended by the branches of the Arab unions and Committees in support of the revolution.

During this meeting they condemned the Iranian invasion of Oman and also resented and deplored the stands of the Arab governments and their silence over the invasion which threatens the Arabism of the area of Oman and the Arabian Gulf.

In their resolutions they stressed the importance of the Arabian Gulf area, strategically and economically to imperialism which is moving its watchdogs, the Iranian and Arab reactions, to extinguish the liberation spirit which is ablaze in the area and to ensure the influence and hegemony completely of imperialism over this area.

They said that the presence of the Omani revolution gives a lively example of the struggle of all peoples including the Iranian peoples.

The resolutions of the meeting also said: The Shah of Iran is using chauvenist racism and nationality as a tool to hide behind it the reality of the invasion. The conferrers praised the braveness of the People's Liberation Army and the People's Militia in checking off the recent Iranian attack on the Western Region of Dhofar and called for further solidarity and effectiveness of this solidarity in a practical and remarkable manner backing the struggle of the Arab people of Oman. After the solidarity meeting the front's film "The Liberation Hour Struck" was screened followed by a debate on the situation in Oman.

THE LAW OF THE FOREST IS THE PRINCIPLE OF THE
IMPERIALISTS AND REACTIONARIES

The sign of solidarity with the struggle of our Omani people and the great sympathy and support secured by our issue at both Arab and world levels was the centre of attraction and great admiration by our Omani people.

No doubt that the critical situation which is being faced by our people today at this critical history of the struggle and wonderful steadfastness of this patriotic people in the face of the biggest forces of imperialism and reaction which endeavour to exterminate it and extinguish the spirit of freedom and prestige, the spirit of national independence, is gaining the support and sympathy of all liberated and peace and justice-loving peoples.

Our people fought long for their legitimate rights and introduced great sacrifices. But the enemies of peoples, the enemies of peace do not want to leave peoples decide their own destiny by themselves. They are dying as they have done in Indo-China and Palestine, Oman and Eritrean and every part of the world in order to rule the destinies of the peoples. Therefore, they are trying to subjugate their prestige through violence, repression and all old and new methods adopted by imperialism and its ally reaction. Our people insists upon continuing the struggle and the revolution, and the imperialists insist upon continuing their aggressive and annihilation war against our people.

So the revolution represents the real picture of humanity as it must be while colonialism and reaction do not know the meaning of humanity nor characters nor any other features possessed by man in his behaviour with himself and the others. They only know the language of iron and fire, the language of force, the language of meanness which was created by their interests. They know the principle of "the strong controls the weak."

The person may wonder much and keep thinking long. Those societies which have cut long centuries in a state of primitiveness (and the principle of the law of the Forest) and reached a higher degree of civilisation and social system, now return back thousands of years to enact upon other peoples the law of the forest and to endorse its classical positions and to build their glories and current civilisation with the same mentality of the man of the jungle of course with some differences. Certainly this is strange indeed.

MUSCAT PUPPETS CHALLENGE WORLD BY IMPLEMENTING THE SAVAGE
ASSASSINATION CRIME AGAINST THE FOUR PATRIOTS AND
GO DEEPER IN LAUNCHING CAMPAIGNS OF ARREST

The traitorous rulers of Muscat have turned their backs towards the campaign of world, Arab and local resentment and condemnation which asked these traitorous to stop implementation of their physical liquidations and campaigns of executions and arrests against the patriotic citizens of Oman. They showed their fascism and malice against our Omani people and their negligence for the local, Arab and international public opinions when they carried out further executions in a very mean way. They have assassinated the four patriots: Soud al-Marzouqi and his comrades in utter silence and went deeper in launching further arrests and imposing the terroristic detective system which was never witnessed except by Chile. The Muscat puppets fight the fascists of Chile in Oman from these aspects only. But in the case of brave militants Soud al-Marzooqi and his comrades, some of whom were tortured unto death and against whom a fictitious trial was held recently, they tried through their press and radios to stick false propaganda against them in order to reduce their steadfastness at least at external level.

Their meanness reached the extent that the hired intelligence pens of Hussein started to write stage plays to be broadcast over Sallalah and Muscat radios against these four patriots.

Such disdain and and despotism reached by the Muscat traitors and Jordanian intelligence only prove the malice hidden by these rogues towards the martyrs even after their death because these martyrs were strong like iron in the face of all their means of torture and physical liquidation. During their life the intelligence machineries, all machineries, could not obtain even one word from these martyrs. When they failed to obtain anything from them they then killed them. This is one one hand, while on the other, the information fabrications by the Qaboos machinery which is administered by the Jordanian hired pens of the proceedings of the fictitious trial and the mean stage plays only prove the extent of popular indignation over such mean ways followed by them against the patriots.
